Soft Drinks Made A Preacher Dizzy

Greenup, Ky., April 13.—(Special to Times.)—The trial of Albert Harrison and other South Portsmouth soft drink men for alleged selling of intoxicants began at one o'clock.

A large crowd filled the court house many coming from South Portsmouth in answer to subpoenas. County Attorney William Cole prosecuted the cases. Former County Attorney E. E. Fullerton appeared for the defense.

Somewhat of a sensation was created by the frank admissions of James Scott, a Methodist minister and complaining witness on the stand. Scott testified that he purchased six bottles in Harrison's place March 31 which contained labels of the Christian Moerlein Brewing company. He drank two to try the contents and the stuff made him dizzy. He kept the four remaining bottles and submitted these to the court as evidence. Scott was still on the stand at 4 o'clock. He said he bought the stuff to see what kind of business was being carried on.

Auto Talk

Don't let oils or acids get to your tires; if exposed to either for any length of time, they are likely to become worthless. Defects so caused are often not noticeable until after the damage is done. If oil drops on tires, wipe it off at once and be sure your car is not left standing on an oily floor in a garage.

Don't forget to keep your clincher rims free from rust and sharp edges.

Don't use a casing after it is worn to the extent that it shows the canvas; have it retreaded to prolong its service. To use a much worn shoe is to invite the bursting of the inner tube. Put your repaired tires on the front wheels.

Times Daily Recipes

How to Use Cheaper Cuts of Meat.

In studying how to utilize the cheaper cuts of meat, American housewives have much to learn from their foreign neighbors, particularly the French, Germans and Italians. Descendants of the old New England stock have also inherited the frugality of their Pilgrim forbears, but it is Southern women who have been brought up with plenty of everything and the young housewives who lack experience who need help at this crisis. For such the following receipes may prove helpful:—

Roast Forequarter Lamb or Mutton.

Take out the shoulder blade, leg and back bones, and any pieces of membrane, wipe with a damp cloth and rub lightly with salt and pepper. Fold into shape and tie securely. Put into a kettle of boiling salted water to cover and skim carefully as the scum rises. Simmer gently, turning over occasionally until the meat is nearly tender. Drain and place in a baking pan.

Dredge with flour, salt and pepper, and bake until brown and crisp, basting frequently with some of the water from the kettle and a little tomato. When the meat is brown, remove to a hot platter and keep hot while the gravy is made. Stir into the fat in the pan two tablespoonfuls flour, and stir and scrape the glaze from the sides of the pan. When browned add two cups water from the kettle in which the meat was cooked, or half water and half tomato, season to taste with salt and pepper and serve in the sauceboat with the meat. When baked or mashed potatoes or macaroni and cheese are also served, one need not ask a better dinner.

Cream of Onion Soup.

Your request for name has been forwarded to the proper department and will be answered in time.

Peel and slice four Bermuda onions or their equivalent in home grown white or yellow onions, cover with boiling water and let simmer for eight minutes; then drain dry. Put a tablespoonful of butter in a saucepan, and when hot add the onions and cook about fifteen minutes until softened, but not colored. Add a pint of hot water and simmer gently for an hour, or until tender. Mash through a puree sieve, add one cupful milk, one tablespoonful flour stirred smooth with a tablespoonful of butter, and stir until cooked. Add salt and pepper to season, and just before serving beat in one cupful cream into which has been put one egg yolk.

Plain Onion Soup.

This is wholesome and "tasty." Slice two or three large onions and fry yellow in butter or [illegible] drippings. When soft add three tablespoonfuls flour and stir until cooked and frothy. Now add slowly a pint of boiling water, stirring until smooth and slightly thickened. Have ready three potatoes boiled and mashed and add to them a quart of milk that has been brought just to the scalding point. Put the potato and onion mixture together, season with salt and pepper, let it get hot, then press through a strainer into a tureen. Sprinkle over the top a little parsley minced fine and a handful crisp croutons.

Potato Soup.

Wash, peel and cut four medium sized potatoes into small pieces, cover with cold water, salted, and cook until done. Have ready a pint of milk scalded in a double boiler, together with a tablespoonful of minced onion and a little celery or celery seed to flavor. Take the potatoes from the fire, turn off the water and mash. Thicken the milk with a tablespoonful of flour, then add to the potato and mix. Add a tablespoonful of fine minced parsley and serve with crackers or croutons.

Wilson Winning Many Converts

The big revival at the First Baptist church under the leadership of Evangelist Manley Wilson still continues to be a soul winning one. Many converts come forward every night and the interest seems to increase with every meeting. Mr. Wilson is proving himself a true evangelist and he is doing much good for the First Baptist church and the city.

"Except a man be born again, he can not see the kingdom of heaven," was the scriptural passage upon which as a base he preached a powerful sermon on Tuesday evening. He used the passage to cover a broad field and touched time and again upon the temperance issue. "Thank God you have voted the saloons out of Portsmouth." The saloon is as good as the man who gives the license, as good as the churchman who voted for the license and the saloonkeeper, the man who gave the license and the churchman who voted for it will all go to hell together," were his views as he proclaimed them from the pulpit.

"No community," said he, "can prosper without a church and Christian influence. Take away the church and real estate in Portsmouth will depreciate fifty per cent."

In speaking of confirmation, he said "you may be confirmed a hundred times and yet go to hell. You must be born again."

In speaking of morality, he said "a man may be moral and not a Christian but if he is a christian he will be moral" In speaking of culture and how many persons think to get to heaven on their culture, he said, "Hell is full of culture."

"No person," said he, "is happy except he be in his own element. If you are happy at the dance hall, in the saloon, the theater, or the gambling den, you have not been born again." The happiness of man in his own element he illustrated by a story of two boats leaving the wharf, one for a Methodist camp meeting and the other for a horse race. Just as the boats were leaving a Methodist preacher and a saloon-keeper come running to the wharf and arrived just in time to catch the boats. In the hurry the preacher got on the boat going to the horse race and the saloon keeper got on the one going to the camp meeting. Each soon discovered that he was on the wrong boat and the voyage was a very disagreeable one. They were not in their own elements.

"Grace is the finished work of Christ upon the Cross of Calvary," was his definition of the word so often wrongly used. "The belief in Jesus being the son of God will not save you. The Devil believed that also. You must give up all for Jesus and be born again."

Mr. Mountain Here.

Harry W. Mountain of the Ironton Construction company, was a visitor in Portsmouth Tuesday afternoon between trains. Mr. Mountain's company is completing a big paving job at Kenova.

NEEDFUL KNOWLEDGE

Portsmouth People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of lassitude and fatigue. Neglect these warnings and there is danger of dropsy, Bright's disease or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Portsmouth proof:

James Long, 19 W. Tenth street, Portsmouth, Ohio, says: "It is always a pleasure for me to recommend Doan's Kidney Pills. For a long time I was rarely free from a constant ache across my back and kidneys and whenever I stooped, sharp twinges darted through me. If I sat still for a long time and then attempted to get up, my back felt as if it were on fire. Doan's Kidney Pills, procured at Fisher & Spencer's drug store, entirely rid me of this trouble and in 1904 I publicly recommended them. At this time I have no hesitation in confirming my testimonial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

EXCHANGE DEAL IS BLOCKED

According to inside information it looks as though the deal whereby the Schwartz Clothing Co. and Malavazos Bros. were to exchange locations, will fall through, simply because at least one of the owners of the Richardson building has so far steadfastly refused to sign the lease that will give Messrs. Malavazos possession of the property.

However, the question will not be definitely determined until on next Saturday. If the lease is not signed by that time, all deals will be declared off and Messrs. Malavazos will at once let a contract for the remodeling of their property corner of Fourth and Chillicothe streets.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, Price, 75c per bottle. Take Hall's Family Pills for constipation.

COLVIN SENT TO JAIL

Al Colvin, accused of maiming a horse belonging to the Interstate Transfer company, pleaded guilty to the charge of cruelty to animals before Squire Hall late Tuesday evening and was fined $40 and costs and given 30 days in jail.

CAKEWALK DONE BY DUNCAN SUBJECTS

Cake walking while hypnotized was the most laughable feature of the varied program of Duncan, the hypnotist, at the Grand opera house last night. The subjects, after being hypnotized were given the suggestion that they were veteran dancers and although some of them had worked hard during the day yet the striking of the first chord of music seemed to entirely banish this fact given their minds and they performed like veterans of the "sanded boards."

Perhaps the most laughable part of the entertainment is when the subjects are aroused to their normal condition during their performance, when they are doing their best in the various stunts which they do at the suggestion of the hypnotist. This awakening shows them some of the stunts which they have done and the condition in which they generally find themselves causes them to make a hasty retreat from the center of the stage as it is their desire to get out of the sight of the audience.

The features of tonight's program will consist of roller skating without skates, the hypnotic circus and the awakening of Miss La Bonte from her forty-eight hour hypnotic sleep. Before arousing the subject Duncan will conduct a series of experiments with the subject while several blocks from the theater accompanied by a committee selected by the audience. Duncan will cause the subject to act as the suggestions requested by the committee and the audience will verify whether or not the tests had been successfully carried out. This is the strongest test ever offered by a hypnotic.

How Dever Voted

From the interesting publication, the "journal of the Ohio legislature," it is learned that Representative Noah J. Dever was one of the members of the lower house of the Ohio legislature who voted to put to sleep the Employers' Liability bill. This is the measure backed strongly by organized labor of Ohio and fought so bitterly by the Employers' associations of the state.

MINISTERS HOLD A LONG SESSION

A five-hour session of the Ministerial association was held Tuesday, but no report of the proceedings or cause of the prolonged session was made public. It is said, however, that the meeting was held to consider some rumors that got into circulation to the effect that there was some dissension in the ranks of the association. This is strenuously denied and an effort is being made to trace the rumors to their sources.

Italian Couple Soon to Marry

The banns of Charles Camarca and Miss Josephine De Luca were published at Holy Redeemer church Sunday for the third and final time. The marriage of the Italian couple will take place in two weeks. Camarca for the past 18 months has been employed as a granite and marble cutter at the Rode Granite Works and is a fine young man. The bride-elect lives on Robinson avenue and has a good position at the Selby shoe factory.

DR. RAY HAS HAD BUSY WINTER, TAKES A REST

City Physician Dr. J. B. Ray is enjoying his first little rest after six months' hard work it having been unusually busy winter for him. He expects to take advantage of it by taking a run up to Columbus this evening to visit his mother, Mrs. Hannah Ray, who is not very well. She is in her 90th year. Doc may also drop around to the Jefferson club banquet to hear Senator Gore of Oklahoma, and other noted speakers.

THEY INJURE CHILDREN

Ordinary Cathartics and Pills and Harsh Physic Cause Distressing Complaints.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given, except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They cause griping, nausea and other distressing after-effects that are frequently health-destroying and a life-lasting annoyance.

We personally recommend and guarantee Rexall Orderlies as the safest and most dependable remedy for constipation and associate bowel disorders. We have such absolute faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies contain an entirely new ingredient which is odorless, tasteless and colorless. As an active agent, it embraces the valuable qualities of the best known intestinal regulator tonics.

Rexall Orderlies are eaten like candy. They are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness or other undesirable effects. They have a very natural action upon the glands and organs with which they come in contact, act as a positive and regulative tonic upon the relaxed muscular coat of the bowel and its dry mucous lining; remove irritation, overcome weakness, tone and strengthen the nerves and muscles, and restores the bowels and associate organs to more vigorous and healthy activity.

Rexall Orderlies completely relieve constipation, except when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition.

There is really no medicine for this purpose so good as Rexall Orderlies, especially for children, aged and delicate persons. They are prepared in tablet form, in two sizes of packages: 12 tablets 10 cents, and 36 tablets 25 cents. Remember you can obtain Rexall Remedies in Portsmouth only at our store—The Rexall Store, Wurster Bros., 419 Chillicothe street, Portsmouth, O.

THE ETERNAL QUEST.

The house, probing into the methods by which the Elson telephone bill was passed, is about to start, so it is announced, on the quest of the men higher up. That is all right, provided it be not a shield to cover up the dereliction of any member improperly influenced. It ought to be the watchword in all such investigations to let no guilty man escape, but what the people, after all, are most concerned about is the action of their alleged representatives. They want the bribe-giver exposed and punished, if possible, but they want the bribe-taker revealed because they can punish him without fail.

That there were actually corrupt methods used to pass the Elson bill is not by any means clearly established; that undue means were resorted to is largely a matter of belief growing out of the non-action of the legislature and the actions of the lobbyists. These latter fairly swarmed to Columbus to secure the passage of the bill and their activities gave rise to numerous rumors affecting the honor of the legislators, but when Governor Harmon felt moved by the volume of scandalous and persistent rumors to recommend the elimination of lobbyists, both houses treated his message contemptuously. Having placed such low estimate on themselves they can not blame the people if they hold low opinion of them likewise and form grave suspicion as to their conduct. Which should impress them that their greatest concern should be to first clear themselves.

Uncle Joe evidently fears the Insurgents more than death. He says he will be the speaker of the house until March 4th, 1911, unless they and the Democrats remove him.

THE PROSPECT FAIR.

Never did the signs point so clearly and unanimously to an era of vast prosperity. Scarce any where is there symptom of alarm or ill. Even the speculative stock markets are without a substantial thrill. The iron industries are busy and new orders are coming in steadily and plentifully, the railroads are having an unusual freight tonnage, but still better crop prospects are better than they were last year, except wheat shows a slight deterioration. The acreage of this, however, is larger and there is small likelihood of its yield falling in total below that of the previous season. Prices on all soil products continue at a good level for profits and the entire situation could scarcely be improved on. The only uneasiness exists as to the labor situation. There are quite a number of strikes on and others are threatened, but the feeling is these will be soon and amicably adjusted to such an extent as not to materially affect general conditions.

Nick Longworth, the son-in-law of his father-in-law, is among the also mentioned G. O. P. gubernatorial nominees. Bring him along he will be as easy picking as any other.

MUST ANSWER.

The work of taking the fourteenth census of the United States will begin Friday. An army of 70,000 enumerators are employed and they are expected to complete their work in about six weeks.

A quite general understanding is the census is the mere counting of noses in the country. If it were no more than that the work could be done in a week, but census is a rather complex affair and it embraces the gathering of statistics of population, how old each one is, where born, nationality, descent, married or single, white or colored, occupation, in fact well nigh everything about the individual, except his religion and politics—even this latter enumerators will be ordered by the bosses to learn and make improper note of—farm production, manufacturing output and divers other data. Some of the questions encroach upon the privacy of the citizen, but he must answer all, or else expose himself to severe penalty. Should the enumerator ask a question, which seems impertinent or unreasonable, he should be made to show his right to ask it. When he does that he must not meet with further refusal.

Supposably, all answers to questions are confidential and the enumerator has no right to reveal them to anyone. He should have promptitude of attention and be given readily the official information he seeks.

You never know how much a man is worth until he is dead. A modest Brooklyn clerk's estate is found to value three million dollars.

WE SHALL SEE.

Governor Hughes, Republican, of New York, is said to be something of a protype of Governor Harmon, Democrat, of Ohio. Both are men who got their offices without obligations or unholy alliance with politicians and have shown an entire independence and indifference of the gentry in attending to their own offices; both are mentioned as presidential possibilities with their parties; both have disgusting revelations of graft to deal with and both have seen fit to address their legislatures on the subject of scandals concerning the passage of bills.

We shall see if the similarity continues or ends there. It is a commonly known fact that when Governor Harmon called the attention of the Ohio general assembly to the scandals it disregarded all sense of its own dignity and reputation by contemptuous treatment of his message. The New York assembly has not yet foot-balled Governor Hughes' message so summarily, but it has taken no action on it. Possibly, it is waiting further information as to how the course of its fellow-body was received by the people in Ohio. If it get its ear close to the ground it will have no difficulty in hearing some most ominous sounds.

Huntington will please take notice that Portsmouth proposes to do a little business in the expansion line also.

A QUICK GUESS.

Eugene Foss, the man who got his name in all the papers one day about a month for overturning a Republican majority of 14,000 and being elected to congress by 6000 from a Massachusetts district, is still ascending the dizzy heights of fame.

Leastwhile that most eminently staid and respectable journal, the Boston Transcript, predicts ascension for him. Republican though it be, it professes great admiration for Foss and makes the early prediction he will be the nominee for vice president on the ticket with Harmon. It says he is admirably equipped for the place because he is rich—an indispensable requisite with a vice presidential candidate—and has no entangling record as a Democrat, Bryan or anti-Bryan. This might be taken as a sly dig under the fifth rib for Foss' Democracy is not of a vintage that reaches as far back as the last of Bryan's three races, to say nothing of the first. Truth to tell the daisies have not blossomed twice since it budded, for something like a year ago he dismounted from the G. O. P. elephant, mounted the donkey and, taking the Democratic nomination for governor, started such a pace that he was beaten only by a neck.

But what does it matter how old or young is his Democracy? People are not looking for the party records of a candidate. They are trying to learn what he stands for today and what he will do tomorrow.

They are fast learning that a man's professed allegiance to a party counts for nothing—parties make pledges in their platforms and then when votes put it in power, it betrays all its promises and calls the man who votes to keep the pledges, an insurgent.

They are wary therefore of party promises, they want the man honest enough to tell what he intends to do and brave and strong enough to keep his intentions.

Eugene Foss seems to be that sort of a man. It is early to forecast these things, but the Democratic party might go farther and fare worse than in nominating him for the vice presidency.

Officially Charlie Dick will be the only Republican candidate for senator; as a matter of fact if every member of the legislature were to be a Republican Dick would not be as much as 100 to 1 shot for election. And the legislature is not going to be Republican at all.

A young Ironton widow shocked her acquaintances by re-marrying a Greenup county man five months after her bereavement. But just think of where the poor thing had to live.

It makes no difference whether it be a railroad or a traction line that is to build down from Jackson. Either will be equally and entirely welcome.

None of the Republican candidates for state offices are making much stir. They do not know who is going to be the new boss.

Old Henry county (Ill.) man says in the winter of 1891 quail were so plentiful that one day from a bobsled on the winding road leading down from Alfred Taylor's old mill he shot a dozen barrel of the little birds. Those were the happy days. These times to get that many one would have to hunt in a cold storage warehouse.

Now somebody wants to know "Are Women To Be Blamed for the Increased Cost of Living?" No, not the real woman, a thousand times no. There's no noticeable increase in the price of the dill pickle, the charlotte russe and the swiss cheese sandwich, is there? That's the limit of the real woman's extravagance.

London cable says that Mr. Balfour's recommendation that the salary of John Burns, as president of the local government board, be $25,000 has served to call attention to the fact that the British Cabinet costs $375,000 a year and the American Cabinet $104,000. Ah, me! And still we wonder at crime.

Promise not to tell any one that you had your arm around my waist to-night," said Dottie, sweetly imploring. I admit I was startled.

"Am I dreaming?" I demanded, pinching myself. "Answer:—No, I am not dreaming. But—your waist."

"It's in that bundle—my best white silk waist," she explained, pointing to the laundry package she had handed me to carry. I wrapped both arms around it.

"AROUND MY WAIST."

"Ah—ketchoo!" I exclaimed, for the changing weather had done its worst.

"Sir, you are squeezing my waist!" she cried, indignantly.

"Id's thids bo'ful sprigg deight," I answered thickly.

"You should never become sentimental when you have a cold in the head," she admonished.

"I thought dothing battered but cold in the heart," I retored, thickly.

"Or a chill in the feet," she added. "What makes you so romantic?"

"Rheumatic is more like it," I grumbled.

"What makes you so slow tonight?" she questioned. "You walk along as if you didn't care to"——

"Ketchoo!" I sneezed.

"Well, yes, I suppose that's what I meant to say," she conceded. Although from your leisurely gait I don't see how you walked fast enough to catch a cold."

"Sprigg fever," I replied, trying to enunciate clearly.

"Can't you say spring with a ring?" she began.

"Not by a solitaire!" I cried.

"But think of the music of the plain gold band," she insinuated.

"I suppose you think I'm too weary to make a half mile dash out of this neighborhood to escape your persecution?" I inquired.

"Is that why you keep the width of the sidewalk away from me?" she asked, mischievously.

"No, but your hatpins exceed the regulations," I complained.

"They're regulation hatpins," she demurred.

"You're all stuck up with them," I commended. "Do you see the point? No, you do not see the point, because your hatbrim protects you. Moving on the next platform we have"——

"Can't you be serious?" she asked.

"Not to-night. You might accept me," I replied.

She sighed and said:—

"I suppose I started this by that little joke about my waist."

"Not a joke—an arm around your waist," I corrected. "Your slender waist," I ruminated.

"And yet it was a waste of breath," she sighed, dolefully.

"Must you go in?" I queried, as we paused before her home. "Can't we go to some first night show?"

"What! At this hour! What premier is there to-night?" she asked.

"Well, there's the first production of 'The First of May,' a moving drama at the Wiggly Film Theatre," I answered.

"Oh, motion pictures!" she exclaimed.

"Do I hear a second to the motion pictures?" I demanded. "This is a very original plot in which the man knocks all the crockery and chinaware off the table, falls down stairs, runs into the lawn sprinkler, hides in a flour barrel, is beaten over the head with a broom and is dropped down a well, with a lot of good action that Shakespeare never could have imagined."

"I wonder why moving pictures have become so popular?" she mused, tapping one foot thoughtfully on the sidewalk.

"Well, they require darkened houses," I suggested, "and they came in about the time park commissioners installed brilliant and frequent electric lights in the parks."

"Spring is a soggy season," she smiled.

"Oh, then you want to go!" I observed.

"Aren't you glad you have a show?" she asked.

SIDELIGHTS ALONG WASHINGTON BYWAYS.

Washington, D. C., Wednesday, April 13.—The red tape which frequently binds up officials of the government was recently disclosed in the Treasury Department when a clerk in the revenue service came across some correspondence between Lieutenant Richard Sturtevant and the chief of the service.

Lieutenant Sturtevant, who, by the way, is still in the service, was stationed at Mobile several years ago. One day he received a telegram ordering him to proceed forthwith to Sitka, Alaska. "Forthwith," in a government message, means take the earliest possible train.

Sturtevant was willing to obey the orders literally, but being on a modest salary and the social duties of his station having eaten an enormous hole in his supply of ready cash, he wired the Chief of the Revenue Service as follows:—

"Telegram ordering me to Sitka, Alaska, received. Please advance month's pay in order that I may comply therewith."

The next day Sturtevant received a telegram reading as follows:—

"Your telegram received. Proceed forthwith to Sitka, Alaska."

Sturtevant was puzzled over his limited finances and the apparent impatience of his superior officer, but finally had a brilliant thought. He sent the following message to Washington:—

"In compliance with orders to proceed forthwith to Sitka, Alaska,

am leaving tonight on foot for San Francisco. Upon reaching San Francisco will proceed to swim to Sitka."

Sturtevant waited for results and got them. Early that evening as he sat at his hotel, with no thought of hiking it cross country, a messenger handed him the following message:—

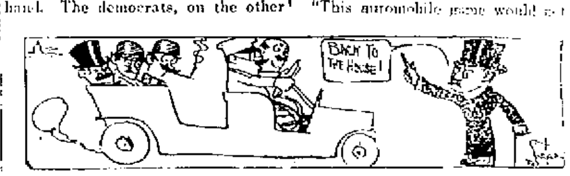

"Sub-Treasurer at Mobile has been instructed to advance you sixty days' pay. Proceed to Sitka, Alaska."

Sturtevant did so, and in comfort.

With the grass getting green and flowers budding and the air balmy, the democratic and republican whips of the House of Representatives and their assistants are finding it more and more difficult to keep track of their members.

The organization leaders never know when the insurgents are going to "put one over on them," and hence they find it necessary to always keep a good supply of votes on hand. The democrats, on the other hand, are not loath to help out the insurgents in their warfare against the Speaker and his lieutenants and they, too, need a plentiful supply of votes. The weather, however, is playing havoc with their plans.

Members of the House seem to have gone daft about automobiles. There are three times as many standing outside of the Capitol each morning than there was a year ago. Many of the members employ drivers, but most of them prefer to drive their own cars. Heretofore they have been content to drive up to the Capitol in the morning, allow the car to remain outside until the House adjourned at five o'clock and then start for home. Now it is different. The members of the automobile brigade arrive at the usual hour, all right, but they depart much earlier. They remain in their seats awhile, get uneasy, go down stairs to lunch and then get boasting about the merits of their respective machines. The result is that early in the afternoon there is an exodus.

"This automobile game would not be so bad," said "Jimmie" Burke, assisted republican whip, "if the fellows would go off by themselves. But they don't. They usually wind up by taking a few fellow members joy riding. The result is that we fellows who are left to guard the destinies of the republican party are getting gray scurrying up enough votes every time a roll call is demanded. I'm going to suggest that the House buy an automobile. I'll bet I could send it out to Rock Creek Park any afternoon and locate a quorum of the House."

RAILROADS FIGHT THE WOODS BILL

Columbus, O., April 13.—Opponents of the Woods utilities commission bill advanced the plan of a commission to investigate the needs for such legislation to postpone for another year the enactment of a law to place public service corporations under the state control before the senate committee on commercial corporations Tuesday evening. The plan was proposed by A. W. Kittredge, of the Barney & Smith Car Co., of Dayton, but it did not meet with much favor from the committee.

Leaders of the committee met Wednesday in private with various attorneys and business men, who have not spoken at the public hearings.

Utilities affected by the bill were represented at the meeting by a big force of attorneys. The senate chamber was filled with the lobbyists on both sides of the question. Speakers included men talking supplies to steam railroads, employes and others interested in utilities.

S. P. Bush, president of the Buckeye Steel Castings company, Columbus, the first speaker, pleaded that no further burdens be laid on the steam railroads. F. A. Durban, Zanesville, general counsel for the Baltimore & Ohio railway, devoted much to his address to pointing out the hardships the measure would impose on municipal utilities. Other speakers included E. J. Kinkaid, Cincinnati; Judge E. P. Matthews, Dayton; R. E. M. Cowie and F. R. Herrick, Cleveland, for the express companies; C. A. Weitzel, Cleveland, and W. F. Frances, representing railroad employes; S. A. Hoskins, Wapakoneta, former Democratic candidate for secretary of state, and ex-Congressman H. T. Bannon, Portsmouth, general counsel for the Norfolk & Western railway.

Southern Ohio Men Loom Up In Probe

Columbus, O., April 13.—At the Elson bill graft probe hearing Tuesday evening, Representative Kirkpatrick, of Adams county, told of being called by long-distance telephone by R. C. Henderson, of Manchester, who represents the Bell interests, and asked him to support the bill. He was also talked to in the corridor by John Murphy, of Cincinnati, and one, Davis, of Clermont county, who told him of a situation in the last named county that had cost the stockholders much money because they could not consolidate with the Bell company.

The session of the investigating committee was relieved by two interesting witnesses — Chairman Langdon, and Representative Arthur R. Black, of Ashland, a member of the committee.

The former testified that on the day Representative Pears, of Allen, testified to the offer of the $1000 bribe, he met Simon Cronin, the accused person. Pears had not given the name, but had asked for an hour's respite for consideration.

Before the committee reassembled Cronin hailed the chairman in the rotunda, and during their talk was told that Pears was going to name his man.

"I know it," said Cronin, "He is going to name me."

Representative Black controverted the testimony of Representative George Bowers, of Pickaway county, who cast the deciding vote for the bill. Bowers testified that he had not been approached or talked to by any one, and that he had cast his vote in the usual way.

Black testified that he saw Representative Brenner, of Springfield, take him by the sleeve and urge him toward the platform, and that he was joined by Representative Lowry, of Lawrence.

Later Simon Cronin came up in haste and joined in the endeavor, the three pushed Bowers toward the platform, from whence he finally voted.

The witness did not know that the actions of the members were improper, but he thought Cronin had no right in his part of the performance.

Jewett Is Ducked

It has just leaked out that Timothy G. Jewett, well known lumberman and cooperage owner, got a bad ducking in the Scioto opposite his farm Sunday.

Mr. Jewett had just launched a new boat and started out to do a little fishing. The craft had not gone over 12 feet from shore when it sank and before Tim could realize it he found himself struggling for dear life. His hat, bait, pole and all were carried down stream, but he managed to reach shore in safety. He swore his companions to secrecy and waited until dark before returning home in his automobile.

CHANGE TIME OF SESSION

Columbus, O., April 13.—The general assembly, through the action Tuesday of the house of representatives, voted that hereafter newly elected legislatures shall meet in the January following the choosing of the members.

At the beginning of the present session Senator Frank Patterson, of Ashland, offered the bill which was passed by the house. It was considered a long time by the lawyers of the senate and finally agreed to.

Tuesday evening the house took it off the calendar, and, without debate, rushed it through with but two opposing votes.

If Governor Harmon signs the bill the next general assembly will meet in January, 1911, without being summoned into special session by him, and will not meet again until 1913 unless some emergency should arise in the interim. Thereafter the spirit of the constitution will be followed by having biennial sessions.

New Dispensary To Open Next Tuesday

Workmen are rushing the completion of the dispensary which the German M. E. church is to open in the old gas company building on West Second street. The dispensary will be opened next Tuesday, April 19th, and the public will be invited to inspect the new hospital.

Dr. Charles Wendelken, who is to be the physician in charge, in an interview with the Times Wednesday, stated that it would take some time to get things running smoothly. "Before the dispensary is entirely successful the people will have to be educated up to the idea. The free dispensary is a new thing in Portsmouth, and so it will take some time to get it started."

Dr. Wendelken stated that for a time he would be the only physician connected with the institution, but that in a short time a collegue would be added.

When asked if he thought the dispensary would be a success, Dr. Wendelken replied, "Most emphatically, yes." It will be a boon to those who cannot afford to pay for medical attention, and it can always be used as an emergency hospital."

At first the dispensary will be opened on Tuesday and Fridays, but gradually more "open days" will be added until it will be open night and day.

Chillicothe, O., April 13.—Frank M. Curry, named as trainmaster of the Indiana division left on No. 1 Tuesday for Seymour, Ind., to assume his new duties, but he does not expect to move his family away from Chillicothe for about two or three months.

The Indiana division of which Mr. Curry will have charge has 250 miles, extending from Seymour, Ind., to Cincinnati and from North Vernon to Louisville. He also has two branch lines, the Vernon and Jeffersonville branches.

DEVER HELPS TO PULL TEETH OF BRIBERY BILL

Columbus, O., April 13.—As compared with chicken stealing, the crime of giving, or attempting to give a bribe to a public official or member of the general assembly is a minor offense, according to five members of the general house judiciary committee, including Dever, of Scioto; Elson, of Tuscarawas; Schaibley, of Cuyahoga; Spiegel, of Hamilton, and Bowersox, of Williams.

These five men have practically pulled the teeth of the bill of Senator Toad, of Youngstown, which, as passed by the senate, provided a fine of not more than $500 and imprisonment in the penitentiary not less than one year, nor more than 20 years.

The five members of the judiciary committee of the house, in the face of the bribery charges now under investigation in connection with the passage of the Elson telephone merger bill, which would permit the formation of a gigantic telephone trust, cut out all reference to the penitentiary and made the bill read:

"Shall be fined not more than $500 and imprisoned not more than five years."

A lenient judge may send a bribe-giver to the county jail or the workhouse and comply with the bill as amended.

PIKE CO. CASE WAS DECIDED

Columbus, O., April 13.—Because Joseph Von Schritz was a headstrong man his estate will get nothing from Pike county as damages for his death. He was driving a fractious young horse one day when the animal refused to cross a Pike county bridge. Bystanders urged him to let the horse be led but he would not hear to it and began whipping the animal. The horse backed against the railing of the bridge and the whole outfit went over into the river and the occupant was killed. The widow sued for $10,000 damages, alleging that the railing was not strong. She got a verdict for $500 in the Pike county courts, but the supreme court sets it aside.

Fine Gift To Supt. Carey

Employes of the N. & W. railroad, presented Mr. J. T. Carey with a fine gold watch, 23 jewel, Howard make, and a fine gold chain upon leaving the Shenandoah division and going to the Scioto division and going to the Scioto division of the N. & W. The watch cost $140 and the chain $21.00.

HATTON FIGHTS SEILING CASE

On behalf of H. T. Hatton, Attorney Guido Gores, of Cincinnati, has filed an exception in the United States district court to the ruling recently made by Referee Mark A. Crawford in the involuntary bankruptcy proceedings of the L. H. Sieling matter.

It will be recalled that Mr. Hatton had secured a loan of $335 by a chattel mortgage on the fixtures in the Sieling store. The trustee objected to the claim being placed on the preferred creditors' list and the referee upheld the contention. The petition filed by the Cincinnati attorney asks to set aside the finding of the referee.

Mrs. Al Wittenberg has moved from East Third street to a house on East Sixth street. Her father, Charles Selsmann, expects to make his home with her for the present, at least.

Judson Whitsell returned Wednesday morning from a six months' stay at Hot Springs, where he has been employed in a saeil cafe.

George Fisher has accepted a position with Jacob Fiadeis, Gallia street butcher.

Legislative Gossip

Columbus, O., April 13.—Senator Duvall, of Jefferson county, put up a fight Tuesday afternoon to cut down the number of senate porters from 20 to 7, but the senate was in no mood to do anything so economical and he was unable to accomplish his purpose. The senator moved that the senate financial committee be relieved of the Gottshall resolution providing that seven porters should do the work about the chamber, but this was defeated by a vote of 26 to 6. Senator Duvall said that it cost the state $40 a week for attendants at one door of the chamber and that the aggregate time they put in at the door was 12 hours. He said that the senators would not run their own business in such an extravagant manner and he thought that now would be a good time to run the senate on a sound business system and thus establish a precedent for the future which would save the state money. He estimated that by reducing the force of porters the state would save about $1500 during the remainder of the session. But the senate refused to be economical and the motion was killed decisively.

If Representative Kennel's anti-lobby bill gets through the senate it will be a miracle. The measure has been turned over to the tender mercies of the judiciary committee and what that committee will do to the bill is enough. If there is a measure to be killed a play is made to send it to that committee and if this is accomplished it is a pretty safe bet the bill will die unless the senate relieves the committee of the measure, which is done occasionally.

The house has passed the Morgan bill to prevent adulteration and deception in the manufacture and sale of baking powder by requiring the publication of the ingredients on the label. The senate passed the Mooney bill providing that insolvency on the part of the employer at the time he buys employers' liability insurance shall not invalidate the insurance, so far as the injured employ's claim is concerned. The senate passed the Shanklin bill amending the primary election law so as to provide for the selection of alternates for all conventions.

Just when Secretary Joseph Bishop, by dint of his own efforts, was settling the biggest strike that ever threatened Columbus, that of its street railway employes, the house finance committee cut out the appropriation for the state arbitration board. Chairman Ritter said the committee did not think the service justified the expense. It costs the state $3000 to run this board and the people of Columbus believe it is money well spent. If the senate does not restore the appropriation the arbitration board will be put out of business. Labor organizations are up in arms for the striking out of the appropriation.

WIDOW REFUSES TO MOVE, HOUSE BEING TORN DOWN

West Eighth street residents are speculating as to the outcome of a strange situation in that vicinity.

Some time ago Mrs. Charles Clark, an aged widow and mother of George Clark, purchased a house near Court. She found herself unable to keep up her building and loan association payments and the property was taken from her hands and lately sold to Billy Mayfield, a painter. Mrs. Clark was given a certain time in which to vacate the property, but when that period was reached she was not ready to leave. Mayfield went ahead with preparations for razing the house. The aged woman asked the workmen who appeared to desist until she could move. Next time they called she again asked them to withdraw. After meeting with several rebuffs Mayfield concluded to tarry no longer and gave the word to go ahead with the work whether the woman occupant moved or not. A chimney was torn down Tuesday, but undaunted the aged woman remained in the house and to all appearances is there to stay.

S.S.S.
BEST SPRING TONIC

Every one should take a tonic in the Spring; our systems require it. The change in the seasons produces a like change in our bodies, and more is required of the blood, from which source we receive physical nourishment and strength, at this particular time than at any other.

Almost every one feels bad in the Spring. Some have no particular sickness, but are debilitated, run-down and weak, and their systems are in a general state of disorder. This deranged condition of the health is due to weak, anaemic blood; the circulation is infected with impurities which have diminished its natural nourishing powers, and the body is suffering from deficient blood nutriment. The refuse and impurities which naturally accumulate in our systems are not properly expelled in Winter, because those members whose duty it is to perform this work of drainage do not receive sufficient stimulation from outdoor exercise, and therefore grow dull and sluggish in their action; nor is the skin as active in eliminating waste maters in cold weather because the pores are not so open as in warm seasons.

These Winter accumulations pollute the blood and largely destroy its nutritive qualities, and when Spring comes, and everything takes on new life, and we change our method of living, the circulation is so weakened that it is unable to supply the increased demands of the system. Then we suffer from weakness, nervousness, loss of appetite, lassitude, etc. There is a constant worn-out feeling, sleep is not refreshing, and we do not feel able to perform the ordinary duties of daily life. This disordered condition demands the use of a tonic, and it should be one which has the additional qualities of a first class blood purifier, for to restore health and strength the blood must be pure.

The healthful botanical ingredients of which S. S. S. is composed, and the method of combining and preparing them so that they build up and strengthen every portion of the body, make it the best of all Spring tonics. S. S. S. is Nature's medicine, free from strong mineral mixtures and made entirely of the healing, cleansing juices and extracts of roots, herbs and barks; a safe and pleasant tonic for persons of any age.

S. S. S. is not only the best Spring tonic, but its ability and worth as a genuine blood purifier is universally recognized. It builds up the depleted system in the true way, by purifying the blood and supplying an increased amount of nourishment to every portion of the body. S. S. S. removes all accumulations from the circulation, enriches and purifies the blood and overcomes the unpleasant physical ailments that always come with Spring. It rids the body of that tired feeling, improves the appetite, reinvigorates every fibre and tissue of the body, and imparts healthful energy to all who are run-down. The body cannot be strong and well if the blood is weak or impure, and no tonic should be used which does not thoroughly cleanse the circulation. If you select S. S. S. as your tonic this Spring you will experience better results and more vigorous health than ever before, because it will make your blood "just right." Insist on getting S. S. S., there is no other "just as good."

PRETTY GOOD EVIDENCE.

I have used S. S. S. and found it to be an excellent blood purifier and tonic. My blood was weak and impure, and as a result my system became very much run down and debilitated. I lost twenty or more pounds in weight, had no appetite and was in bad shape. Seeing S. S. S. advertised I began its use, and am well pleased with the results after using it for some little while. From 139 pounds to 165 is pretty good evidence of merit on the part of S. S. S., and as to my appetite, it is superb. My system and general health have been wonderfully built up, and I do not hesitate to give S. S. S. the credit for it. H. MARTIN.

Says N & W Welcomes New Trolley Line

The Bluefield, W. Va., Telegraph says that:

"A prominent Bluefield banker said that President L. E. Johnson of the Norfolk and Western, recently asked him if there was any move being made to secure a trolley line through the field from this city to Welch. The banker said he did not know and asked what would be the attitude of the Norfolk and Western to such an enterprise. It is learned that Mr. Johnson was very much in favor of the proposed line and gave his impressions freely, saying such a line would be a great thing for the Norfolk and Western, as it would cut out all of their short hauls, throwing them to the trolley line, and in this way much of the congested traffic in the field would be done away with, thus enabling the road to facilitate the moving of freight.

"The Pocahontas division is perhaps the busiest division in the country. The greater part of the tonnage of the road originates along the hundred mile stretch between this city and Williamson and the heaviest part between Bluefield and Welch, a stretch of less than forty miles. It is a big problem to take care of all the freight and run passenger trains at the same time and a trolley line between the points would solve the problem."

SUPREME COURT AS TO ST. ASSESSMENT LAW

Columbus, O., April 13.—The supreme court in deciding the case of Harry Ball against the city of Portsmouth, held the law as to street assessments to be as follows:

"The provision of Section 53 of the municipal code of 1902, which requires the corporation to 'pay the costs of intersections' when streets are improved, concludes all manholes, catch basins and tilling at intersections.

"The obligation which the section imposes upon the corporation with respect to the payment of expenses of surveying and advertising for such improvement does not exceed the requirement that 'it shall not be less than one fiftieth of such cost and expenses.'"

LITTLE SUFFERER FROM ECZEMA

Grew Worse in Spite of Six Months of Ablest Treatment—Sleep Terribly Broken—Face, Head and Hands Masses of Dreadful Humor.

A SINGLE SET OF CUTICURA CURED HIM

"I feel it my duty to let you know with what success I have used the Cuticura Remedies. When our baby was seven weeks old he broke out with what we thought was heat but which gradually grew worse. We called in a doctor. He said it was eczema and from that time we doctored six months with three of the best doctors in Atchison but he only got worse. His face, head and hands were a solid sore. There was no end to the suffering for him. We had to tie his little hands to keep him from scratching. He never knew what it was to sleep well from the time he took the disease until he was cured. He kept us awake all hours in the night and his health wasn't what you would call good. We tried everything but the right thing. Finally I got a set of the Cuticura Remedies and am pleased to say we did not use all of them until he was cured. We have waited a year and a half to see if it would return but it never has and to-day his skin is clear and fair as it possibly could be. I hope Cuticura may save some one else's little one's suffering and also their pocket-books. John Leason, 1403 Atchison St., Atchison, Kan., Oct. 19, 1909."

The residents of East Eighth street, between Broadway and Lawson's Run, feel under many obligations to the city for the improvement being made in the alley north of Eighth street. GEORGE MILLER IS TO LOCATE IN COLUMBUS

George E. Miller, one of Scioto county's best young men, was in the city Wednesday morning, on his way to Columbus, where he has accepted a splendid position with the Mantle Lamp Co. of America. Mr. Miller, who has been acting as local agent for the concern, has shown such ability that the company has offered him a position of superintendent of agents for territory in the state north of Columbus. It will be his business to appoint agents and there is no doubt but he will fill the position acceptably.

Takes New Position.

A SMART DRAPED MODEL

By Mrs. Jane Ford.

636

6 SIZES 22 TO 32 WAIST

Simplicity is really the vogue this spring, and many of the models are so plain that any woman can make them at home, even though she be an amateur needle worker. One of the features that makes fitting easy is the nominal waist line, which makes belts necessary on all styles of frocks. Almost all the skirts are draped resemblances to the gowns worn twenty-five or thirty years ago.

The popular double skirt is cleverly worked out in the pictured design, which is so patterned that it can be made from either bordered or plain materials.

The pattern for this garment may be secured in six sizes that run from twenty-two to thirty-two inches, waist measure.

When bordered goods is used ten yards, thirty-two inches wide, will be needed. Of plain material seven and three-quarters yards, thirty-six inches in width, will be sufficient, if one and one-half yards of an inexpensive goods twenty-four inches wide is used for the foundation under the over drapery.

This model is suitable for wear with separate waists, or, combined with a bodice, will form an attractive costume.

When used in the latter way the dual idea in fabrics may be developed in this way. The underskirt of [illegible] or woollen weaves and the bodice and over drapery of [illegible]

Better. Healthier Women

are known to exist in this country by thousands because freed from pain and suffering by Lydia E. Pinkham's Vegetable Compound.

Could such a record be made without actual and superior merit? Read what this woman says, and realize that the results secured in her case could not have been made except by a very good medicine.

Lawrence, Kans.—"I was a great sufferer from a weakness, irregular periods, headaches, backaches and other female troubles, which caused a weak and broken-down condition of the system. My side was so sore I could not lie on it. I saw in my daily paper that Lydia E. Pinkham's Vegetable Compound was good for all female troubles and had done so much for other suffering women, so I felt sure it would help me, and it has helped me wonderfully. I got relief from the first bottle. My aches and pains all left me and as I continued taking the Compound I grew stronger. Within three months I was a perfectly well woman, and I want this letter made public to show what benefits women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. Julia A. Snow, Route No. 5, Lawrence, Kans.

Science in surgery and electricity has advanced much in the past 30 years, but the treatment of disease by the old fashioned roots and herbs method has never been improved upon. The fact that this leader of them all—**Lydia E. Pinkham's Vegetable Compound**—is to-day the largest seller of any similar medicine in the world, is proof positive of its value and superiority, for with all our enterprise and advertising we could not keep fooling the people for 30 years. Merit and merit alone is what has made Lydia E. Pinkham's Vegetable Compound the standard medicine for treating diseases peculiar to women.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

BREAK OUT OF RARDEN JAIL

Shortly after five o'clock Tuesday afternoon two prisoners, Wayne Patterson and Bob Ross, made a daring escape from the village jail at Rarden and are still at large.

Marshal Walter Scott had gone to the lockup with supper for the prisoners and he had no sooner opened the door and stepped inside than the men brushed him aside and made a dash for liberty.

An exciting chase followed, the officer pursuing Patterson south across the fields to the banks of Brush Creek. Where the officer was forced to give up the race, the fleeing man swimming the stream.

The fugitive, who is an N. & W. fireman, was seen to board the pusher engine coming east and the sheriff's office was notified.

Patterson was awaiting trial on a charge of assault on Grace, the 15 year old daughter of Mrs. Levina Covert. The crime is alleged to have been committed Saturday night and the seriousness of the charge made the man desperate. The trial had been set for Wednesday before Mayor Kates. Patterson is a native of West Virginia and it is likely he has gone there.

Ross is a Hoffer Hill man and was locked up Monday for the non-payment of an old fine. His course of escape was in a northerly direction.

Central Union Co. Is To Move Exchange

It is learned that early in July the Central Union Telephone company will be compelled to vacate its quarters in the Anderson block, on Chillicothe street, near Third, and seek a new location. The company has not yet definitely decided upon a location for its exchange, but will do so in a very short time.

When the company moves the rooms vacated will be occupied by the Anderson Brothers' company, the store being sadly in need of more room owing to the growth of its business. The present quarters of the telephone company will be remodeled to meet the needs of the Anderson store.

It is possible that other plans may be carried out at an early date to insure more room to this great store.

C. & O. Let Contract For A Double Track

The C. & O. railway has awarded a contract for double-tracking the [illegible] stretch between Greenup and South Portsmouth to Lane Bros., of Altavista, Va.

The successful bidders are the same who got the contract for [double]-tracking the road between South Portsmouth and St. Paul, Ky. They will not allow the latter work to interfere with the new contract, [but] will commence immediately on [the] latest job with a big force of [men] and teams. A new fill will be constructed [and] straight track pass through [the] Thompson place, which the C. & O. bought there clear to the river.

[Double]-tracking is also under way [at] Concord and with the double [track] already laid at Manchester [and] [illegible], and that now under [way] in this vicinity, the road this [summer] will be completely double-[tracked] between Huntington and [Cincinnati].

A [new] supply of low cuts just [arrived] at Lehman's.

LAST HALF AT MAJESTIC

The big feature act of the last half at the Majestic is the playlet entitled "A Disappointed Father," put on by Pompey, Holmes and Mayer. This is one of vaudeville's most entertaining acts, combining clean, wholesome comedy, with plenty of catchy music. The team has scored big hits around the circuit. Another headliner is Rafael, a ventriloquist, who comes here direct from the Orpheum theater, Cincinnati. Critics say he is in a class by himself. DeMora and Graceta are known as "those fast acrobats" and they have an act that goes with a whirl, full of startling sensations. A sweet singer and graceful dancer, La Belle Helena, will round out a show that should please all lovers of vaudeville. Improved independent films are now being shown for the first time in Portsmouth. Take a tip—here's a show you want to see.

TO INSPECT AUTO TRUCK AT SPRINGFIELD, OHIO

Judge George M. Osborn, of the city council fire committee, is in receipt of a letter from Chief Sam F. Hurter of Springfield, saying he would be delighted to show its members the auto driven fire apparatus in use there. He suggested that the committee advise him in advance of its coming so that he may have a representative of the company of which the apparatus was bought on the ground to explain its workings. It is likely the committee will make an inspection trip to that city shortly.

CRYER MAY SUCCEED TO GRIFFITH'S RUN

It is reported that Engineer Spencer L. Cryer will succeed to the passenger run of the late John Griffith, who met death in a recent N. & W. wreck at Watts, W. Va. Griffith's wrecked engine was brought to the East Portsmouth shops Tuesday. It was nothing more than a naked boiler stripped of smoke stack, valve and everything above the running boards.

Appendicitis

How To Avoid It and Escape a Surgical Operation, Told By One Who Knows.

A Simple Method That is Always Efficacious. Trial Package Free.

It has only been a few years since it was discovered that surgical operation would cure appendicitis; in fact, it has been but a short time since the disease was discovered and named.

Whenever there is an inflamed condition in the appendix, caused by impacted faeces in the small cavity opening into the intestine, you then have appendicitis.

The older doctors used to call this inflammation of the bowels, and were puzzled to know the cause.

Even now, with all the knowledge we have of the disease, no medical man can tell you why we should have an appendix, why we find it where it is, or what are its functions, if it has any.

The disease of which the operation is the cure is usually caused by indigestion, and in many cases follows a large and indigestible meal.

Physicians have until recently recommended an operation, but now, as it is known it is caused by indigestion or dyspepsia, a cure without an operation is assured.

Where the patient is treated with Stuart's Dyspepsia Tablets, the unhealthy conditions prevailing rapidly disappear, the stomach and intestines are placed back in their normal condition, every organ in the body operates as it should, and the inflammation is reduced and the operation is avoided.

Conscientious physicians, who are looking after the best interests of their patients, will always keep a supply of Stuart's Dyspepsia Tablets handy in their office, where in cases of sudden attacks of indigestion they can relieve the patient at once.

There is no record of a case of appendicitis where the stomach and bowels were in a healthy condition and properly digested the food from meal to meal.

No better advice can be given to any one who has attacks of indigestion, or who has been threatened with appendicitis than to tell him to go to the drug store, pay 50 cents, and take home a package of Stuart's Dyspepsia Tablets.

Whenever heartburn, gas in stomach or bowels, heart disease or stomach troubles, sour eructations, acidity or fermentation are present, act at once. Take a dose of the Tablets and get relief as soon as possible.

At all druggists—50 cents.

Send us your name and address today and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

"Rom" Got Ruffled At A Negro Brother

The Catlettsburg Tribune publishes a story to the effect that Congressman "Rom" Johnson got on a street car at Huntington and that a big negro citizen sat down on the other end of the seat. Apparently Mr. Johnson's dignity must have been somewhat ruffled by his seat mate for the Tribune says:

"Mr. Johnson is a lawyer and knows something of the rights and privileges of the races and continued to hold his seat as did also his brother of color."

Then Congressman "Jim" Hughes of Huntington got aboard the car, accompanied by Mrs. Hughes and there being no seats, were compelled to stand up. What followed is thus described by the Tribune:

"When Mr. Hughes boarded the car and saw the Ohio congressman he accosted him with the familiar salutation, 'Hello, Rom.' While the greeting was returned. 'How are you, Jim?' In the meantime Mrs. Hughes was seen by Mr Johnson and there was an effort for them to shake hands which was accomplished by Mr. Johnson getting to his feet and extending his hand across the negro's shoulder. While these greetings and handshakes were going on there was no move made by the colored brother to give room or to even get up and offer the seat to the lady.

"The Hughes' stood up while a running conversation continued between the two congressmen, Mr. Johnson standing on his feet until the Hughes' disembarked.

"If that negro fails to vote for both the candidates for re-election he will certainly neglect a great duty."

BIG BOOST FOR ORPHEUM SHOW

Of the show billed for the last half at the Orpheum, the Huntington Advertiser says:

"The Hippodrome show proved more than popular Monday night. The program contained new and unusual features. Opening with Violet Gleason, the comedienne, and closing with "Denver," the untamed mule of the Rockies, the show was a winner from start to finish.

"Axtell, Lee & Heinie," the grotesque comedians, offer some very funny burlesque. Their act is strictly original and extremely funny.

"For lovers of strong drama, "The Silver Sword," by Holland, Webb & Company, furnishes something pleasing. This play is well constructed upon a thrilling theme, and each of the three principals gives a true delineation.

"Strickland's Dog and Mule circus should not pass without especial notice. This act introduces a dozen finely trained dogs, and "Denver," the celebrated Rocky Mountain mule. Denver has never before been east of the Mississippi, and does not look kindly upon the customs of the edcte east. This fact probably accounts for his vile disposition. He positively refuses to be ridden, and when such a thing is attempted he performs antics well worthy of his prairie cousin the broncho. The show Monday night was a veritable festival of merriment."

AN OLD-TIME PRESCRIPTION

is a modern product. From time immemorial sage and sulphur have been used for the hair and scalp. Almost every one knows of the value of such a combination for darkening the hair and making it grow. In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready to use product, skillfully compounded in perfectly equipped laboratories. Such a preparation is Wyeth's Sage and Sulphur, which is sold by all leading druggists for 50c. and $1.00 a bottle, or which is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

FOR SAKE OF HUMANITY HE SUFFERED HARDSHIPS

Was at Last Rewarded by a Great Discovery.

The great scientist devoted twenty years of his life to travel and study for the betterment of humankind and was at last rewarded by the discovery that is today filling hundreds of homes with health and happiness. Hundreds of letters of thanks are being received from every direction; and while money is a much-needed thing the scientist in an interview said: "I would gladly give every dollar I have and every dollar I ever expect to have if all people now suffering with stomach trouble, liver and kidney troubles, understood the wonderful merits of Root Juice. It is a compound that heals and tones the blood-making and blood-filtering organs. It creates a healthy appetite, prevents fermentation of food in the stomach and bowels, cleanses the system, stops bloating, belching and heartburn. It removes all causes of constipation and kidney symptoms. In after effects of la grippe, when general health is bad, Root Juice has a truly wonderful toning action on the whole system. The great remedy is sold for $1 a bottle at Wurster Bros. drug store.

"Poor Richard" Said

"The people are the best judges of merit." This is forcibly illustrated by the increased demand for the famous Cod Liver and Iron Tonic known as VINOL.

Its worth is demonstrated over and over again in building up the runsdown, weak and aged, and to overcome pulmonary troubles. While worthless remedies are disappearing entirely, the fact that the demand for VINOL is rapidly increasing is ample proof of its intrinsic merit. Frank Amann, druggist, Portsmouth, O.

Flimsy Evidence Against Watkins

Mack Watkins, the Lynn, Ky., man, arrested here for an alleged attempt to criminally assault six-year-old Alma Flack, at Riverview, Ky., was dismissed in Squire Brickey's court at Fullerton Tuesday evening.

The testimony against Watkins was of a very flimsy character. The story of the little girl herself was lacking in that she claimed the attempted assault occurred on a public highway and while her brother was with her. Mrs. William Flack, mother of the girl, knew nothing more than what had been told her by the child. She made no attempt to explain why she had waited over a week before preferring charges against Watkins, further than that she had purposely withheld the facts from her husband not desiring for him to know of what had occurred.

Watkins himself took the stand and denied in toto the accusation against him. He said he had been in and around the Flack's home all day, being well acquainted with both Mrs. Flack and her sister, Mrs. Rebecca Young, but nothing was said to him with reference to the child at the time. He intimated that there was something back of it all.

Watkins was ably defended by Attorney R. C. Myers, of this city. County Attorney William Cole was expected to prosecute the case, but failed to appear.

CHICKENS CAME BACK

Bluefield, W. Va., April 13.—Fifty-five of the colored brethren received the benefit of a baptism in the waters of the river Elkhorn on Sunday at Eckman. Rev. Johnson, standing to his knees in the water, took the 55 as they came and as he pronounced the baptismal words over them ducked them where the coal dust and coke cinders passed over them. Many of the people who were baptized jumped up and down in the water and to save himself from being wet all over the preacher had to quell their religious enthusiasm on several occasions.

The occasion was brought about by a big revival which has been going on and it is said that many chickens that had strayed away from home have suddenly appeared on the scene since revival started. In some cases where it was impossible to return the original chicken a substitute was returned and everyone is happy.

The baptism attracted a large crowd which stood in the banks of the river and enjoyed the scene of a number of the colored people taking the dose as though it was an every day occurrence.

EVENING TIMES SPORTS

Season Opens On Thursday; Red's Chances

April 14, 1910, will be tomorrow, and the gong will sound in the American and National leagues. The American association pried off the lid today.

It is generally expected that all the writers, those higher up and those in the bushes, will hand out a forecast on the outcome of the race in the various leagues. That has been done from time immemorial and at the best is a guess. Rarely, if ever, have the teams finished as doped, and this particular "scribe" does not propose to show his ignorance this season, at least.

The fact of the matter is that so many unlooked for elements enter into a fight for the flag that any forecast may be upset in forty different ways before the season is one month old. For instance, the veterans may slow up or become injured, sickness may invade the ranks, dissensions may arise, the phenoms may explode and a dozen other things happen to knock the dope galley west and crooked. The job of forecasting a baseball race is as uncertain as the weather man's.

The one thing, however, in which Portsmouth fans are interested is the club sailing under the name of the Cincinnati Reds. It must be admitted that the chances for the Reds look much better than at this time in 1909, when the team finished fourth. At that time Griffith had a team of which he knew but little. He experimented for the first 12 weeks of the race, and finally announced that he had a pretty nifty team. His prediction that he would finish in the first division was [illegible] out, however, by the skin of his teeth.

This season he's not gone on record as to where his team will finish—[illegible] fellow that chap. He has not [illegible] the other clubs and does not [illegible] whether they have strengthened proportionately as the Reds. [illegible] precious little difference [illegible] Pittsburg and Chicago have [illegible] strength, for these two [illegible] the Reds with painful [illegible] anyway. New York will [illegible] hard to lick, because they have [illegible] ably added strength, and [illegible] may be considered as [illegible] from the resolve in the first [illegible] article, they have a good [illegible] to finish 1, 2, 3, providing [illegible] keeps on the water wagon and Marquard shows his true form.

The Reds are well fortified afield; strong behind the bat; they have a splendid infield, and in Mitchell and Bescher in the outer breastworks they have two of the most valuable gardeners in the country. Rightfield is still a problem, and a safe bet is that the job will lay between Paskert and McCabe. The former is a wonderful fielder, but weak on hitting curve balls. McCabe is a youngster and has shown great promise. If he can hit like he has been doing, the Reds will be an important factor, and their chances as good or better than New York.

In the box the Reds loom up in fine shape. Beebe, Fromme, Spade, Gasper, Rowan and Suggs—upon these fellows' good right arms will stand the burden of pumping the hot shot into the enemy. A left-hander will also be developed and if he proves good, then it would be a poor sport, indeed, who would refuse to take the sharp end of a 2 to 5 bet that Cincinnati wins the flag.

Never Played In Portsmouth

Manager Lewis, of Marion, is after First Baseman Miller, of Paterson, N. J., who has been highly recommended to him. Miller played with the Portsmouth team last year and made a good hitting and fielding record.—Newark Advocate.

Smoke a different brand, Des, old boy. Never heard of Miller down this way.

Many Senators To Walk Plank

Columbus, April 13.—Secretary Quinn is trying his hardest to find berths for the ten or twelve players who must soon be dropped from the rolls of the Columbus club. Places for them seem hard to find and some may have to be released outright. Two catchers, four pitchers, three infielders and an outfielder will soon be dropped from the list.

Quinn Will Not Be Pres. Of O. P.

Akron, O., April 13. It is reasonable to presume notwithstanding the reports to the contrary, that Manager Bobby Quinn, of the Akron club, will not be elected president of the Ohio-Pennsylvania league.

The scheme of having Quinn placed in such a position, and at the same time being a club owner in the same league, is not thought to be just the proper thing by other club owners.

The affairs of the O. & P. league since the death of President Samuel L. Wright are looked after by a board of directors, consisting of five members or club owners, and the chairman of this board is J. Howard Maxwell would not have the job at East Liverpool club.

It is also said that Maxwell could be elected to the presidency of the league, but it is well known that Maxwell would not have the job at any price.

Some club owners have expressed themselves as being in favor of the position of president going to a newspaper man, but as long as the board of directors can administer the affairs of the league, the club owners are saving a wad of money.

TIGERS HOPE TO REFEAT IN 1910

The Detroit Tigers are planning to win their fourth consecutive pennant on three different deliveries—curve, fast ball and knuckle ball.

The curve and fast ball delivery belong to George Mullin, premier twirler of the American league for 1909; the knuckle ball and a curve delivery are the property of Eddie Summers, while the fast ball and curve combination are what "Farmer" Willett relies on.

"Wild William" Donovan is not figured in the combination. Bill says he "didn't know about himself." Some think that Bill will never come back. His arm is not in any better shape than it was at this time last year. Not alone that, but he missed nearly three weeks of training, due to an automobile accident, which ripped up the flesh of his left arm to the elbow and put him out of the running.

If Donovan fails to show this year Jennings will be fortified with several promising youngsters.

There is Ralph Works, the pride and joy of flourishing and fastidious Quincy, Ill. Ralph, the noble six-footer, last season implored Jennings to allow him to pitch one game against the Cleveland Naps because the Naps were all hard-hitters, and when Hughie consented to let Ralph pitch, the Quincy Romeo repaid his manager by holding the Naps to two scratch hits.

Ralph will be in the running this year. He has shown good control in all his spring try-outs and here again are presented the fast ball and a dinky curve. Ralph's curve is growing in width but the growth is nothing like that of the green bay tree.

Bill Lelivelt is another lad whom Jennings expects to trot to the mound quite regularly. Bill has a speedy delivery and a slow curve.

Browning, a right-hander from the Pacific coast, and Pernoll, a left-hander from the northwest, are the best of the pick of recruit twirlers. Pernoll has a baby knuckle ball, control and speed, while Browning has a slow and extremel fast curve and control.

Hughie's pitching material looks a heap better this year than it did last and the principal worry of Mr. Jennings is over with.

Odwell Likes Senators Chance

Columbus, O., April 13.—"The Senators will start the season 40 per stronger than they were a year ago," says Fred Odwell. "Why, just think of last year. We had Miller on first, O'Rourke was trying to play short and Larue was at third, with Wrigley at second. Now compare that with this year's infield. Our outfield is just as good as last year's and our catchers are 100 per cent better, while the pitching staff looks mighty sweet to me. I look for a great year for Columbus this year."

ORLANDO KELLER HERE FOR A FLYING VISIT

Orlando Keller, well known former Portsmouth ballplayer, now of Roanoke, arrived here Tuesday for a brief visit to friends before entering upon his season's work with the Fairmount, W. Va., team.

A DARK OUTLOOK

Jeffries To-Day Begins Long Siege Of Training For Fight

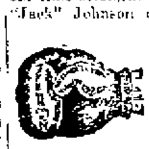

Big Fellow Starts Work in Earnest at His Camp in the Santa Cruz Mountains.

WHETHER HE CAN COME BACK BOTHERS EXPERTS

One Authority Believes, However, He May be Stronger Than Ever in His Life.

(By JOLTUM BIGMYTT.)

From Rowardennan, in the Santa Cruz Mountains, comes the news that "Jim" Jeffries to-day started in actual training, to get back his old time strength for his battle with "Jack" Johnson on July 4 next.

He has mapped out a vigorous course of training in which there will be no let-up until he pulls up stakes and sets out for Emeryville, where the contest is to take place. Whether Jeffries can regain his old time strength and prowess as a fighter is the question that has and, no doubt, will continue to be the cause of more discussion than any other question in connection with the contest and there is no chance of its being decided until the two principals get into the ring.

As the strongest argument in favor of the contention that Jeffries has no chance to win, the followers of Johnson insist that the big Californian cannot regain his strength after his retirement for more than four years. They do not, and will not, believe that an athlete who has been out of active life can re-enter his particular game fully equipped with his old time strength.

Expert Opinion Divided.

Authorities on physical culture, on fighting, and, in fact, authorities in almost every line of sport, have advanced their ideas on the subject, and the opinions are divided. But there is one man in New York City who is looked upon by every one interested in the fighting game as an authority and whose word would be taken quicker than any other should he come out openly and give his views.

This man is a well known fight enthusiast, who has officiated as referee in many of the most important ring battles that have been held in this country. His chances of acting in that capacity at the coming fight are good, and for that reason he refuses to allow his name to be printed with his opinion.

"I have known 'Jim' Jeffries ever since he first put on a boxing glove," says this authority, "and I am convinced that he can come back to his oldtime form. In fact, I am positive of it. I do not say that he will beat Johnson—I would rather not express my opinion on that point—but as to his regaining his old strength, I think he can do it easily if he trains properly.

"Of course, there are not many instances in the fighting game where a man has been out of the ring for any length of time and then re-entered it again with any show of success. But I think that the majority of the people who have been doping out Jeffries as being unable to come back have lost sight of a most important fact.

Favored by Late Start in Game.

"This fact is known by few except those who have been intimately acquainted with Jeffries for years. It is a fact that in my opinion, must be taken into consideration when you try to figure out Jeffries' ability to come back. Jeffries never put on a glove nor entered a prize ring until he was twenty-two years old. Before that he had not done a stroke of training of any kind.

"Now, this being true, Jeffries has a chance to come back, and a good chance at that. Most fighters start in training early in life, say when they are sixteen or seventeen years old, and they use up all of their energy long before they have acquired their full strength. Jeffries did not use up all of his energy, and I believe that he still has plenty of it left and will come back strong, probably stronger than he ever was in his whole career."

There are no cases similar to Jeffries' which could be used as a precedent. It is likely, however, that there have been "smaller fry" in the fighting game who have made good after having temporarily retired. There is nothing in the records though that shows this.

In other lines of sport it may be mentioned that there have been champions who have made good after being out of active life for a time. Among the foremost of these are Constance Titus, the oarsman; George Bonhag, the runner, and Mike Donlin, the former star of the Giants.

But rowing, running and playing baseball are quite a different game from fighting.

Nine millions of people will witness big league baseball games this year.

This is going to be the greatest year in the history of baseball. Baseball owes its popularity to its honesty.

The ball players of today are a better class than those of the past, with all due respect to the old-time players.

Nearly a quarter of a million red-blooded Americans will formally open the baseball season in the league cities next Thursday.

No finer examples of manhood can be found than American baseball players. A great deal of responsibility falls upon the umpire, and his position is the most ticklish upon the diamond.

Now, play ball.

—From an interview with Thomas J. Lynch, president of the National Baseball league.

Farming Players Is Good Thing

While it is true that some years ago the system of farming ball players was a hardship on the players, yet conditions have so changed that the average ball player who is farmed out by a major league club is really benefitted.

The demand for material is so great these days that there is not the slightest danger of a ball player capable of holding his own in fast company being sent back to the little leagues to finish his education. Good ball players are so hard to get that a major league should have the right to develop by means of sending its surplus players to slower company. And this is being done, too, though the rule against farming is avoided by an agreement between the two clubs which gives the major league club an option on the pick of the team in the fall for the player it turns over to the minor league club. In this way the big league club can draw back the player it has sent there if he shows that he is ready to come up. The player has in the meantime drawn the same salary he signed for with the major league club, and has been worked regularly and been given a chance to learn.

Jack (Twin) Sullivan made such great showing against Sailor Burke in New York the other night that the promoter is now trying to get Papke to meet the big twin.

St. Louis Writer Says Reds Will Beat Out Giants

Frank Parker, a noted St. Louis critic, picks Pittsburg to repeat and again win the National league flag this season, with Chicago second and Cincinnati third.

Parker gives his reasons for believing the Red Hosed tribe will beat out New York in the following interesting manner:

Manager Clark Griffith's aggregation of speedy ball tossers are given the preference over McGraw's New York crowd for third place, because of the fact that the latter team looks to be anything but promising, judging from the present line-up.

McGraw has the grandest pitcher in the league, Christy Mathewson, a clever second baseman in Doyle, and Devlin on third is a very good man. That about lets New York out. Ames, Crandall, Raymond, Wiltse and Marquard have nothing on Spade, Fromme, Coveleski or Beebe. As to catchers, if Larry McLean could behave he would easily have any of the Giant receivers discounted. Schlei disappointed, as also did Myers, and it is said that Wilson, who was hardly given a chance last year, will be the star this season in the backstopping end of the game.

At first Hoblitzel has Tenney and Merkle beaten so far that there is no comparison. Egan played sensational ball last year, and it is only reasonable to believe that he will show vast improvement this season. Doyle, of New York, is a grand player, so possibly the Giants have a shade here. Bridwell outhit and outfielded Downey last year at short. However, the Cincinnati player is bound to improve, while Bridwell will hardly do better than last year. If Lobert gets going right he should experience a great year. Certain it is that the "Dutchman" is a grand ball player. Devlin outplayed Lobert last year.

In the outfield it appears that Griffith will have the best of McGraw. Mitchell will outhit any player the Giants have. Bescher should improve in his hitting this year, and it's certain he will score more runs and steal more bases than any man McGraw has. "Red" Murray may outhit Bescher and Paskert, but that's about all he will do. Seymour and Devore will most likely complete the New York outfield along with Murray, and when compared to Griffith's trio of fly-chasers, the latter looks to have far the best of the argument.

HERE'S CHANCE FOR YOUNG PLAYERS

Evansville, Ind., April 13.—Vincennes, Ind.; Paducah, Ky.; Hopkinsville, Ky.; Henderson, Ky.; Clarksville, Tenn., and Madisonville, Ky., or Owensboro, Ky., will be the members of the new Kitty league which will be launched at a meeting to be held in Evansville next Sunday. Clarksville is the only one of these cities that has no ball park. The citizens there have promised to raise $3500 to buy a park. It is planned to open the season on May 14 with 120 games. The salary limit will be placed at $800 a month for each team, and 13 players will be allowed to a team.

C. C. Gosnell, of Vincennes, Ind., formerly president of the old Kitty league, is one of the promoters. The launching of the league will give employment to about 10 ball players.

Des Likes Our Mike

Manager Roach will reach Portsmouth this week and will start his work. So far his squad only numbers 14 men, but leave it to Mike, he will just about give the River City the best gang of ball tossers they have had since they have been playing ball there.—Newark Advocate.

Don't Believe In Wasting Balls

Jim McAleer, the new manager of the Washington club of the American league, is opposed of the profligate wasting of balls by a pitcher in an effort to break up the hit-and-run play. In discussing the question in the Washington Post, McAleer says:

"Pitchers of the Johnson, Groom, Gray and Kalker do not have to waste a ball to prevent the hit-and-run play. It's a mistake, in my judgment, because no batter living is certain of hitting those elbows when they lay the ball straight over the plate. I believe that if they are just allowed to pitch at the top speed with men on the bases the hit-and-run play will be successful but seldom, while if the catcher asks them to waste the ball as often as twice on a single batter they will find themselves in a hole and are finally compelled to let up and put it over or walk the batter.

"Of course, if the catcher was always certain that the base runner was going on a certain ball it would be policy to waste it and throw him out, but the result is that they waste another ball to make up for the first mistake, and the pitcher is the one to suffer thereby.

"Why, a pitcher of Johnson's ability ought to never waste a ball. When he has a man on bases he will needs merely to put on extra steam, and it will not happen once in 50 times that the batter can hit the ball when he wants to. Most ball games are lost because of the pitcher's wildness. He may not give bases on balls, but he gets himself in a hole at critical stages, and then has to let up, and the system of wasting the ball has been largely responsible for this state of affairs."

A Sciotoville Boy Is Hit By A Train

Jerry Willis, 16 years of age, who makes his home with Dr. F. M. Stewart, had a narrow escape from being killed by the west bound B. & O. passenger train, Wednesday morning at 10 o'clock.

Young Willis, who is employed as driver of the delivery wagon for the Stewart Merchandise Co. at Sciotoville, had started to cross the B. & O. tracks on Bloom street, when he heard the train whistle. He attempted to stop the horse, but the grade was steep and the wagon was squarely across the track when the train hove in sight. Willis had presence of mind to pull the horse to one side, but the wagon was not quite in the clear, for the shaft was hit by the engine and the wagon overturned. The boy was thrown fully ten feet and was found in an unconscious condition. Blood was pouring from a cut on his head and it was feared that he had been fatally injured. He was hurried to the office of Dr. Steward and shortly revived. His right leg is badly injured at the knee but no bones are broken. The horse was badly bruised and skinned up.

There were a dozen people who were eye witnesses to the accident and they expected to see the boy and horse killed outright. The people of Sciotoville have been clamoring for a watchman at this crossing for some time, as it is impossible to see an approaching train from this particular point in either direction.

Alley Improved.

The residents of East Eighth street, between Broadway and Lawson's Run, feel under many obligations to the city, for the improvement being made in the alley north of Eighth street. It has been graded and macadamized and a brick gutter laid in the center. The water will drain into Lawson's run. Heretofore the alley has always been impassable and it was impossible for a wagon to even traverse the alley, which is now in splendid shape. The improvement is also good from a sanitary point of view.

LAND APPRAISER HAS RESIGNED POSITION

At a meeting of the council of New Boston, Thursday evening, Mayor Morgan will name a successor to Frank Taylor, who has resigned as land appraiser, an office to which he was chosen at the recent election. It is said that Squire Marion Poole has the inside track for the appointment. He is thoroughly competent to fill the position.

Great Work Done By Ohio Graft Probers

Columbus, O., April 13.—The Beatty graft probe committee had its final inquiry Tuesday night and will now prepare its report to the senate. It has examined 50 witnesses and turned up more than $100,000 in graft, besides showing up extravagance in the fire marshal's office.

W. S. Rogers, who was removed as fire marshal by Gov. Harmon was the final witness. Special Counsel H. J. Booth attempted to bring out that Marshal Rogers employed men as deputies during the last state election, whose only duties were to travel the state in the interest of the Republican ticket. This he denied.

The fact that the force amounted to 38 men during that period was because they were needed, he said, but he could not say whether there were more fires than usual.

Some time was spent by Mr. Booth in learning the duties of Hy D. Davis and Dr. Clarence M. Maris. Mr. Rogers would not say that Davis was employed as a lawyer, although he had much to do with prosecuting "firebugs," he declared.

Under Rogers the total amount of money paid to Mr. Davis was $2645, of which $2405 went as compensation at the rate of $20 a day.

Dr. Maris was known as the "pyrologist" and was in office for about five years. Rogers admitted that he approved of Maris's trips to New York. He did not know that Maris went to the metropolis to see John Hays Hammond in the interests of Davis for United States marshal.

Rogers was conducted through the monthly vouchers of Garrett Fox, a detective in the bureau, who did most of the work in turning up the notorious Williams county gang of firebugs, and the late Harian H. Hollenbeck, who was an assistant deputy.

An attempt was made to show during the year 1905 Hollenbeck drew a salary and expense allowance from the department, amounting to $846, while in truth he spent most of the time at the Republican state headquarters.

To do this O. L. Hartupee, a deputy under Marshal Creamer and now under Fire Marshal Zuber, was placed on the stand. Hartupee declared that during that period Hollenbeck boarded at his house, and he often went to the Republican headquarters with Hollenbec. This was under Hy Davis. The year Rogers was in office Hollenbeck, including his salary, drew from the state treasury $3412, of which about $1600 was expenses.

At the close Marshal Zuber, the present incumbent, who turned about $190 back into the state treasury, was called to the stand and questioned by Mr. Booth as to his ideas of what economy could be exercised in the department.

Senator Beatty said that the committee had but a few days in which to complete its report; that there was work enough about the statehouse and institutions to keep it busy for six months, but it was impossible to get all of it.

Hiram Reed Admits To Robbing Store

Hiram Reed, Portsmouth young man, after several hours' sweating, broke down and confessed to burglarizing O'Brien's gent's furnishing store at Chillicothe Sunday night. He implicated no one else in the robbery and insists that he did it alone. Reed said he visited Chillicothe several days ago and he located the store. Then he went back Saturday night. On Sunday at midnight he entered the store by removing a pane of glass with an old razor. Soon after entering the place he saw a policeman go into a restaurant across the street, and remained in the store until almost daylight, when he made his getaway, taking a lot of plunder, including seven pairs of shoes, jewelry, clothing, suspenders and a revolver. The latter he traded to a negro for a suit of clothes, which he sold for a dollar.

Going to the outskirts of the town Reed hid the plunder in a clump of bushes alongside the C., H. & D. railway tracks. He remained in Chillicothe all day Monday and returned here Monday night.

The clue that led to his arrest was obtained from a card that had been torn into bits and found by the police near where a lot of paper shoe boxes had been abandoned by the burglar. The pieces of the card were formed together, and the name, "Hiram Reed, Portsmouth and Washington C. H." was plainly made out. The local authorities were communicated with and [illegible] of Reed followed.

Reed lives with his widowed mother, Mrs. Mollie Reed, [illegible] East Fourth street.

Chief [illegible], of Chillicothe, came down after Reed Tuesday night and on [illegible] his confession [illegible] to go to the [illegible]. Reed said he concealed the [illegible] in a [illegible] was [illegible] stuff was found as Reed had [illegible].

Feud Has Resulted

Thomas P. Coriell, of Turkey Creek, was before Justice Orin Veasey Wednesday on a charge of trespass, preferred by Morgan Francis. He entered a plea of not guilty and was bound over to the grand jury in the sum of $100, which he furnished.

This case is a sequel to the sensation recently created in that part of the county, when Coriell had Francis arrested charged with adultery, and on which charge he was dismissed when the case was heard before Squire Hall. Since that time Coriell and Francis have become mortal enemies. The former was seen crossing the latter's land Tuesday evening, and as Mr. Francis had warned him to keep off his farm, he immediately swore out the warrant for his arrest.

MOTHER OF W. L. FINLEY DROPS DEAD TUESDAY

Columbus, O., April 13.—Chairman W. L. Finley of the Democratic state executive committee, Tuesday received word that his aged mother, Mrs. Jane Finley, had fallen dead at her home in Whitesville, Noble county. She had just returned from a journey and was stricken while walking to her dwelling from the depot.

Lester L. Finney, sporting editor of the Blade, returned Tuesday night from a week's stay in Columbus.

An Open Letter

From The Ebersole Piano Company

Cincinnati, O., March 26, 1910.

The Harps-Sprinkle Music Co.,
Portsmouth, O.,

Gentlemen:—Your favor of the 24th is at hand and noted. We have placed your order for one (1) style "C" Mahogany, one (1) style "S" Mahogany as requested. The style "C" will go the first of the week, and the style "S" about two days later. I trust they will be in time for your purpose.

In regard to Mr. Seiler, he naturally dies hard, as he has sold several hundred Ebersole pianos during a period of possibly ten years, more or less. Of course, it goes hard with him to lose the most valuable agency that he has ever had. There is only one thing which I am obligated to do in that connection. Before the change was made, Mr. Seiler reported that he had two Ebersole, oak cases, which he had gotten through other parties here in Cincinnati; not new goods direct from the factory, and which were varnished checked. I promised to sell him two new Ebersole pianos, in oak, as he had arranged to exchange those second hand pianos with his customers. He is to pay cash for the new pianos, as we have no responsibility in regard to those which he had gotten elsewhere, and which were not new goods. We have not been able to complete that agreement, because we were short of stock on oak cases, but must do so soon.

Now this was no more than an honorable agreement with Mr. Seiler, before the territory was turned over to you, and we of course must fulfill our word with him. This is what any dealer would have a right to expect under similar circumstances, so you will understand that those are the only new Ebersole pianos which can be secured by any one in your territory. We believe thoroughly in the policy of frank and candid dealings with our representatives, and that they are entitled to protection in the territory that is assigned to them.

You also know that there are parties in Cincinnati who have repossessed Ebersole pianos, on account of the paper which they purchased from The Smith & Nixon Piano Co., when it was in existence. Those have very nearly all been disposed of. We do not think there are more than three or four left in Cincinnati. Mr. Seiler or anyone might purchase one of those without our knowledge, and of course we could not control that. But they would be second hand goods, and if anything of that kind turns up, if you furnish us the number of the piano, we can tell something about its history. Our advice is to go right ahead, and represent the goods before the public in the manner that high grade goods should be represented, and the competition will soon die out, because they cannot get new supplies.

Yours truly,

THE EBERSOLE PIANO CO.,
Jos. G. Ebersole, President.

Deemer Is Sued On Eve Of His Marriage

Attorney Theodore K. Funk filed a motion in common pleas court, Wednesday, on behalf of Zelia Deemer asking that the court open up and set aside a former order in a divorce and alimony suit in 1908 by which the minor child Lena Deemer was given to the father. The wife is now asking for the custody of the child on the grounds that the defendant has wholly failed and neglected to care for the child; that he has abandoned the child; that he has turned the child over to an unsuitable person; that if the child is not cared for it will become incorrigible, vicious and lewd and other reasons.

Mrs. Deemer brought suit for divorce in 1908 and the defendant entered suit on a cross petition and was awarded the decree and custody of the child.

Deemer is now evidently attempting to block the proceeding by marrying the lady who [illegible] charge of the child, for Wednesday morning he appeared [illegible] bate court and obtained a license to marry Miss Anna L. Lewis of Madison township with whom the child is making her home.

Mrs. Deemer is a daughter of Joseph Stegall, and it is understood that Mrs. Deemer expects to place the child with him if she is successful in obtaining a reversal of the court's former decree.
